

Why Stafford Sixth Form?

Want to study A-levels or a mixed pathway with a vocation subject along side A-levels, then this guide will show you how the Stafford 14-19 Partnership could be right for you.

How it works:

Choose your 3 courses to study.

What we offer:

- Personalised teaching with small, nurturing class sizes
- Pastoral care from staff who know you
- Personalised UCAS support and references
- Enrichment to suit your individual needs
- Financial support available for students who meet certain criteria. See our financial support section on the website.

Why have a Partnership?

We offer a Partnership across the 5 school as it gives YOU more options for your subject choices.

This means you can stay in the comfort of your own school, where teachers know you and you know them but can study courses your school does not offer.

Or if for example you wish to study 2 courses that are in the same block you can still study both courses without having to sacrifice one for a different subject.
